OnePower 1001
A03-S1001

- **UPSilon2000 Included**
- **USB Communication Interface**
- **Modem/Lan Internet Protection**
- **Microprocessor Based Design Line Interactive Topology**
- **Advanced Battery Management & Easy Swappable Battery Function**
- **Wide input range (170-287V) application without using battery power (AVR)**

The OnePower UPS is able to protect every electric or electronic system in which could be a fast change of the supply-voltage. The main features of these UPS are:

Transfer time less than 4ms
Microprocessor based
Stabilization of the input voltage with AVR
Overload protection, Short Circuit protection
Interface USB
Multi-function LED display
Easy Swappable Battery

Atlantis Land Line Interactive UPS is easy to install and use. The integrated Microprocessor besides allows and ensures intelligent automatic shutdown (software UPSilon 2000).
